

TREASURY WINE ESTATES

10 October 2017

MEDIA STATEMENT

Treasury Wine Estates media statement on fires in Northern California

TWE's focus is on ensuring all of our employees are safe and we are not sending people in harm's way. The local fire crews and authorities are doing their best to work on containing the fires.

At this stage, there is limited damage to our infrastructures and sites, however the fires are ongoing and we still have limited access to all of our different assets.

The majority of our vineyards and wineries are not presently in the direct fire zones.
