Australian tax transparency measures **Treasury Wine Estates' Australian tax contribution in fiscal 2021**

Introduction

In line with global initiatives to improve corporate tax transparency, the Australian Tax Office (ATO) will again publish information on the tax returns of public Australian companies that report a total income of A\$100 million or more in their fiscal 2021 tax return. The details to be published by the ATO are the corporate tax entity's name, Australian Business Number, total income, taxable income and income tax payable.

Treasury Wine Estates' Australian federal tax contribution for fiscal 2021

Treasury Wine Estates (TWE) paid a net amount of A\$166.8 million in Australian federal taxes for the fiscal 2021 period.

The Australian federal taxes paid by TWE for fiscal 2021 included income tax, Wine Equalisation Tax (WET), Goods and Services Tax¹ (GST) and Fringe Benefits Tax (FBT). The chart below depicts TWE's total Australian federal tax contribution in respect of fiscal 2021, split by type.

¹ TWE received a net refund of GST for the 2021 income year. The refund is largely due to taxable sales declining while purchases remained relatively consistent with the prior year. The net receivable is not depicted in the graph above.

In addition to TWE's Australian federal tax contribution shown in the chart above, TWE contributes to Australian state taxes, including payroll tax, land tax and stamp duties.

TWE's fiscal 2021 Australian tax return information

Key numbers from TWE's fiscal 2021 Australian income tax return¹ include:

	(A\$ million)
Total income ¹	1,550
Profit/(loss) before tax	365
Taxable income ²	354
Tax on taxable income	106
Tax offsets applied	(2)
Income tax payable after tax offsets	104

1. Total Australian income includes net sales revenue and all other revenue and excludes expenses (e.g. COGS, interest, employee costs, depreciation, etc.).
2. Taxable income is assessable income derived from all sources less allowable deductions incurred in gaining that income.

TWE's position on tax transparency

TWE places significant importance on maintaining high standards of tax governance and compliance, and fully supports the work on tax transparency by the ATO, the Organisation for Economic Co-operation and Development (OECD), the Group of Twenty (G20) and other organisations.

TWE has published a tax report adhering to the principles and details of the [voluntary tax transparency code](#) outlined by the Board of Taxation for the financial year ended 30 June 2021. In addition, TWE released details of its Australian federal tax contribution and Australian tax return information for the fiscal years 2014 through to 2020 in previous years.

TWE considers the greater transparency of corporate tax affairs to be an opportunity to share relevant information with stakeholders that is above and beyond what the ATO will publish later this year.
